

INFORMATION FOR RETURNING VETERINARY TECHNICIAN STUDENTS - ENTERING 2ND YEAR, 3RD SEMESTER FIELD PLACEMENT (FLPL20001)

*In preparation for the fall semester Field Placement (FLPL20001), please review the following information and be sure to note and make arrangements to **complete any actionable items (noted in red)** before the start of the semester:*

1. As you know, a college-wide policy regarding a new Field Placement Agreement (FEA) was initiated by Sheridan during the winter 2018 semester (you were enrolled in FLPL13551 and helped distribute the new agreement). As a part of this policy, students are not permitted to start their placement until a signed agreement is received by Sheridan. To minimize the chances of a delayed start to your field placement experience, and to allow your clinic adequate time to review the FEA and have their questions answered, the College has decided to try and send out the agreement over the summer, with the hopes of having a signed copy returned by the end of August. For this, your attention and assistance is requested.

In order to initiate the FEA with your placement sites, we need to know what clinic you will be going to for your 3rd semester placement. To facilitate this, **please complete the attached contract and return it to Sheela Iyer (sheela.iyer@sheridancollege.ca)** as soon as possible. **If your exact shift times have not been confirmed by your clinic, please leave the last section of the contract blank, and we will collect this information from you in the first few weeks of the semester.** This contract will provide Sheridan with the necessary information to contact your clinic, and set up the FEA. Once you have your information, you will not be further involved with this process, and Sheela will communicate directly with your clinic.

2. A new **rabies titre report must be submitted with your placement paperwork in week 1.** The Sheridan College health center is open over the summer should you need to have your blood collected for the titre. You may also have this done at home by your family doctor.

Please don't hesitate to contact Sheela or Amanda to discuss any issues, questions, or concerns you may have.

Enjoy the rest of your summer and we will see you very soon in FLPL20001!
