

Welcome to Sheridan and the Pilon School of Business (PSB) Office Administration – Health Services Program!

We are excited to have you join this program where you will learn to provide vital office support to health-care professionals. This program focuses on technical and professional skills required to work in a variety of Health Service settings. You will learn to use specialized medical software, OHIP billing, electronic calendaring and scheduling, and communication software applications.

Student orientation events will be held on:

<b>Date</b>	<b>Event</b>	<b>Delivery Mode</b>
Tuesday, January 3	New Student Orientation Kickoff	Virtual
Wednesday, January 4	Davis Campus Activities	In-Person
Thursday, January 5	Hazel McCallion Campus Activities	In-Person

During Orientation, we will be reviewing the program overall, class schedules, exam schedules and other important information. Orientation details will be emailed to your Sheridan email account.

This program requires you to use a laptop with a webcam and you will need to have access to one before classes start. Additional minimum requirements for the program can be reviewed on the Sheridan IT page at <https://it.sheridancollege.ca/laptop-requirements/requirements.html>.

The first week of school will be a very busy time for everyone and will involve all sorts of tasks, not the least of which will be the purchase of your textbooks. I would like to advise you to use caution when purchasing used/pre-owned books. Many of the textbooks in our programs have an on-line component which involves a “single use” registration code to access labs and activities. This means that if the book is used/pre-owned there is likely no valid registration code for the on-line tool included with it and the on-line tool will have to be purchased in addition to the textbook. Please consider the costs of all the options before you purchase your books. Some courses offer the option for an e-book or a textbook rental which may be an economical choice. The Sheridan Bookstore or your professors can provide guidance on your textbook options.

In the coming weeks, you will receive emails about Transition Well and the PSB Learn Well Virtual Community.

- Transition Well supports your sense of belonging, connection and engagement with faculty and classmates throughout your first year at Sheridan. It includes one-on-one peer connections, workshops, self-guided tutorials, and New Student Orientation events.
- The PSB Learn Well Virtual Community is an online community built specifically for you and your PSB peers. It is a space where you can find advice, connection, course planning guides, and support services.

If you need any assistance as you prepare for this semester, or throughout your time in our program, please feel free to contact me at [connie.stevens1@sheridancollege.ca](mailto:connie.stevens1@sheridancollege.ca). We have an amazing community of professors and staff who are dedicated to helping you succeed.

On behalf of the entire Sheridan PSB community, we wish you success in this term and over the course of your studies in the Office Administration – Health Services Program.

Warmest Regards,

Connie Stevens
